. CSS, Codefinity
. JavaScript, Codefinity
. Python, Codefinity

CAREER OBJECTIVE

I've been creating websites since I was 15. It's what I like to do, and what I'm best at. I hope to apply these skills to help companies develop better products and expand to reach more customers.

WORK EXPERIENCE

Jr Python Developer
MARKED SPORTS

📅 Sep 2020 - Aug 2022   📍 Remote

. Designed and coded 1,000+ unit and integration testing using Jest and Perficient methodology

. Troubleshooted 2,000+ code-related issues and defects

. Produced detailed design documentation, unit test plans, and documented code for 50+ clients

. Practiced strong configuration management and version control for 20+ projects across 7 teams

. Represented Perficient in 50+ client meetings

. Attended 100+ weekly stand-up meetings to receive tasks and instruction for weekly goals

Frontend Developer, UI/UX
JERSEYSWAP LLC

📅 Aug 2022-Current   📍 Remote

. Designed and coded the customer facing website jerseyswap.app using html/css & bubble visual programming language

. Troubleshooted 2,000+ code-related issues and defects

. Integrated backend API's to enable custom email scheduling & payment integrations

Frontend Developer UI/UX
Freelance Work

📅 Aug 2022-Current   📍 Remote

. Work done for various clients

. As I handled a few different projects, I gained further balanced knowledge of web design and development

. Used different development tools such as traditional code, and no code environments such as bubble for development, as well as figma solely for UI/UX

PROJECTS

www.sorcerer.money
. I built out the entire website, which included the home page & policy pages, as well as a responsive web app for customers. Using various tools such as figma, canva, bubble, html, and css, I was able to complete this in around 30 days. The site is fully functional with live signups and users daily.

www.marked.money
. I built out the entire website, which included the home page & policy pages, as well as a responsive web app for customers. A full application was included within the web app, similar to other payment processors such as stripe.

Portfolio
. Using html, css, and javascript, my portfolio uses a minimal yet thoughtful modern design to show off my previous works & background.
